13	Approve Compensation of Valerie Lorentz-Poinsot, CEO	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR the remuneration report of the CEO is warranted but not without concerns, as: * The STI lacks transparency * The lack of disclosure surrounding the CEO's social engagements is concerning. Support is nonetheless warranted given the absence of any other concern. Voting Policy Rationale: Votes FOR these remuneration policies are warranted, although the following concern is raised: * There is a lack of disclosure on remuneration to be paid to the chairman and directors of the board. The main reason for support is: * The company's previous practice suggests that the amounts paid were generally in line with market standards.

6	Elect Stuart Brown as Director	Mgmt	For	For	For
<p><i>Voting Policy Rationale: Items 6-7 and Items 10-11 A vote FOR these Directors is considered warranted as no significant concerns have been identified. Item 8 A vote AGAINST the re-election of the interim Executive Board Chair Lucio Genovese is considered warranted, as: * The Board did not act on the reputational risks arising from Kostyantyn Zhevago's presence as a NED. Kostyantyn Zhevago, who, along with two family members, holds 49.3% of the Company's voting rights via The Minco Trust, which in turn owns Fevamotnico Sarl, was detained in the French Alps on suspicion of money laundering and embezzling funds. Given the Supreme Court of France's ruling that he is not to be extradited to Ukraine, he remains outside of where the Company's operations are based. * In mitigation, shareholders may question the unseating of the interim Executive Board Chair amid the ongoing Ukraine conflict and the fact that the Company has no CEO. However, although there is much to be said in relation to the merits of stability and continuity, given the numerous corporate governance issues highlighted during his tenure, support is not considered warranted for his re-election. Item 9 A vote AGAINST the re-election of NED Vitalii Lisovenko is considered warranted, as: * In his previous role as SID, he had a level of accountability for the Company's corporate governance practices, as well as its communication with shareholders and other stakeholders. Although his re-election passed at the 2023 AGM (by a very narrow margin), dissent from independent shareholders remained high. * As the former SID, he is also associated with the board decisions pertaining to Kostyantyn Zhevago's NED position on the Board, and therefore must share some accountability for the continuing reputational fallout stemming from the controlling shareholder's detention in France. * As with the interim Executive Board Chair, shareholders may question the unseating of a long-standing NED at such a time of uncertainty. However, given his part in numerous corporate governance issues at the Company over many years, support is not considered warranted for his re-election despite his removal from the position of SID. As noted above, the specific corporate rights restrictions have been imposed on the Company's subsidiaries as part of series of legal proceedings against its controlling shareholder and founder, Kostyantyn Zhevago, relating to Bank Finance & Credit. These restrictions include the ability to vote shares. However, the Company has clarified that this restriction on the right to vote applies to its subsidiaries, and not its own shareholders for the upcoming AGM. As a result, under rule 9.2.2E of the UK Listing Rules, independent NEDs at companies with a controlling shareholder must receive the support of at least a majority of both independent shareholders and all shareholders in order to be (re-)elected. The voting results for independent and all shareholders should be disclosed separately. The Company's Notice of Meeting states that this will be done.</i></p>

<div>Voting Policy Rationale: A vote FOR the grant of FY24 LTI performance rights to the CEO Duncan Gibbs (Item 3) is warranted. The structure of the grant is unchanged from the prior year and is sufficiently aligned with long-term shareholder interests. The company has improved the rigour of the EPS growth hurdle at threshold, which was set at 0 percent growth in the FY23 LTI and now increased to 5 percent growth. Some concerns which deserve ongoing scrutiny include: * The non-financial strategic performance measures continue to have a material weighting despite some reduction in weighting from the prior year to 30 percent of the FY24 LTI. * The rigour of the EPS growth performance measure at stretch has been reduced to 25 percent from 30 percent in the FY23 LTI. A vote FOR the grant of FY24 STI performance rights to the CEO (Item 4) is warranted. No historical abuse of the advance approval of the STI rights is observed. However, this grant represents an advance approval of the maximum amount of rights which can be awarded as part of the FY24 STI. The practice of such advance approval of STI performance rights, before the completion of the year of performance and reporting of results is not well aligned with better market standards in ASX300 companies.</div>

*Voting Policy Rationale: A vote AGAINST this resolution is warranted because: * The proposed policy contains significant scope for the award of discretionary payments via extraordinary bonuses. * A significant base salary and STI target increase is proposed for one executive as of fiscal 2024. Although, a rationale is provided, information (particularly amounts) relating to these increases is not disclosed within the proposed policy (but instead within the remuneration report), which does not represent transparent and adequate disclosure in market context. * At the 2021 AGM, only 71.2 percent of shareholders overall supported the 2021 remuneration policy. Of this, the free float approval rate was only approx. 50.7 percent. While explanations on why no adjustments were made is provided, the underlying policy remains largely unchanged and thus, this apparent lack of incorporating shareholder concerns raises significant concern.*

5.1.6	Reelect Beat Siegrist as Director	Mgmt	For	Against	Against
<i>Voting Policy Rationale: Board elections (Items 5.1.1 – 5.1.6) Votes AGAINST the non-independent nominees: Benedikt Goldkamp, Florian Ernst, Martin Furrer, Claudine Hatebur de Calderon, Anna Hocker, and Beat Siegrist are warranted because of the failure to establish a sufficiently independent board. Votes AGAINST the non-independent audit committee members, Benedikt Goldkamp and Florian Ernst, are further warranted because of the failure to establish a majority-independent committee and because Ernst serves as non-independent chair and Goldkamp serves as an executive member. Compensation committee elections (Items 5.2.1 – 5.2.3) Votes AGAINST the non-independent nominees: Martin Furrer, Claudine Hatebur de Calderon, and Beat Siegrist are warranted because their elections to the board do not warrant support and due to the failure to establish a majority-independent committee.</i>

9	Approve Remuneration Policy	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST this resolution is warranted because: * The proposed remuneration policy contains significant scope for the award of discretionary payments via special bonuses. * The policy does not contain a real long-term oriented compensation component. * The remuneration policy has some complexity that inhibits the full evaluation of its structure, particularly combined with the overall low transparency regarding clear performance metrics and the rigor of the additional 'specific remuneration' component. * At the 2020 AGM (the last time a vote on the policy was on ballot), the free float approval rate was only roughly 35.6 percent; and it appears that shareholder dissent has not been addressed.</i>

The main reason for support is: * The Company has provided a broad commitment to improve diversity, and it is recognised that gender diversity improved during the year. <p><i>Voting Policy Rationale: Item 5 A vote FOR this item is warranted, although it is not without concern: * As Chair of the Nomination Committee, Christopher Rogers is considered to be ultimately responsible for overseeing board composition. After the AGM, only 29% of the Board comprises female directors, and women hold senior board position, which is not aligned with the best practice recommendations. The main reason for support is: * The Company has provided a broad commitment to improve diversity, and it is recognised that gender diversity improved during the year. Items 6-11 A vote FOR these Directors is warranted as no significant concerns have been identified.</i></p>

1	Approve Remuneration Report	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST the adoption of the remuneration report is warranted because: * Payment of substantial bonuses to KMPs, which appears at odds with the company's financial performance and position at year end. * The absence of disclosure in the annual report of specific and quantified targets for the STI metrics lags better market practice and makes any justification of a link between pay and performance less apparent. The poor disclosure does not well justify the substantial bonuses to executives. * Unsubstantiated substantial increase to executives' fixed pay.

1	Approve Remuneration Report	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST remuneration report (Item 1) is warranted noting inconsistencies with better market standards and shareholder outcomes. * Quantitative Pay for Performance analysis indicates a medium degree of concern for misalignment of pay and performance and shareholder returns. * The company disclosed that retention arrangements will be put in place for the CEO and CFO subject to continued employment only, and quantum of the CEO's retention award is excessive and in addition to the retention element in the FY24 EEG LTI grant. * 25 percent of the FY24 EEG LTI is subject solely on continued employment for the three-year performance period. * There is inferior, poor and absent disclosure in the STI, preventing an independent assessment of bonuses against performance and targets. * The STI bonuses appear to have been subject to excessive board discretion, noting absence disclosure and lower Adjusted NPAT compared with STI outcomes near maximum. * Provision for additional board fees for the Chair and Chair of the Risk Committee.					
2	Elect Michael Sammells as Director	Mgmt	For	For	For
Voting Policy Rationale: A qualified vote FOR the re-election of Michael Sammells (Item 2) is warranted. He is an independent Chair on a board that is majority independent. A qualification is to highlight that as Chair he has ultimate responsibility for the problematic pay practices that continue to be observed. He is also Chair of the Remuneration Committee at ASX-listed AMP Limited and problematic pay practices have been identified at that company as seen in the large shareholder votes against remuneration arrangements in prior years. Support for the re-election of Mr Sammells is on the basis of the 'transformational ' merger with Chemist Warehouse, where continuity at board level may be expected by shareholders at this time. A vote FOR the election of Christopher Roberts (Item 3) is warranted, given no material concerns are identified regarding board and committee composition resulting from his election.

The main reasons for support are: * The percentage of women on the Board has materially improved since the last AGM; * The Company states that ethnic diversity will be considered in future appointments. Voting Policy Rationale: A vote FOR the independent director nominees under items 1.8-1.9 is warranted given the absence of any known issues concerning the nominees. A vote AGAINST the following nominee under Item 1.7 is warranted for the reasons below: * Considered by the company as independent director, Max Wu is non-independent non-executive director under ISS' classification. A vote AGAINST the non-independent director nominees under Items 1.2 and 1.4-1.6 is warranted because the independence level will be 25 percent under ISS classification, which does not meet the ISS minimum requirement of one-third. A vote FOR the non-independent director nominees under Items 1.1 and 1.3 is warranted given their removal would be expected to have material negative impacts on shareholder value.

<i>Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * The level of ex-post transparency provided to explain outcomes under the variable incentive plans remains well below market practice and the reporting approach is unclear. * Awards granted under the SAR plan in 2020 vested in the amount of EUR 25.86 million and the basis is not clearly disclosed, which raises concern considering the four-year vesting period and two executives in office.</i>

<i>Voting Policy Rationale: A vote AGAINST the remuneration policy is warranted because: * Although the maximum compensation caps would be lowered, they remain excessive in the context of market practice and are not well explained. Moreover, payouts under the LTI plan would not be subject to a standalone limit. * The supervisory board would be authorized to award a "starting bonus" to new executives, separate from replacement awards and relocation costs. * A change of control clause would be introduced, which is contrary to the relevant recommendation of the German Corporate Governance Code.</i>

4	Re-elect Mansour Al Alami as Director	Mgmt	For	Abstain	Abstain
<p><i>Voting Policy Rationale: Item 4 An ABSTAIN vote on the re-election of Mansour Al Alami is considered warranted, as: * He continues to hold the combined office of Chair and CEO, which calls into question whether the Board can adequately oversee and evaluate the performance of senior officers and the Company. A vote AGAINST this resolution is warranted for those shareholders in markets who have a fiduciary responsibility to vote either in favour or against and who do not recognise an abstention as a valid option. Given the Company's performance during the year under review and the Company's explanation, the recommendation remains an abstain despite Mr Al Alami remaining in the combined role for multiple years. Nonetheless, this will be kept under review. It is also noted that, as Chair of the Nominations Committee, Mr Al Alami is considered responsible for board diversity at the Company, and corporate governance more generally. The Company did not meet any of the three board diversity targets outlined in the Listing Rules. Given that the Company moved into the FTSE SmallCap in FY2023, some flexibility is deemed necessary in assessing board diversity. Nonetheless, this will be kept under review in future years. Item 5, Items 7-9 A vote FOR the re-election of these directors is considered warranted, as no material concerns have been identified. Item 6 A vote FOR the re-election of Lord Anthony St John of Bletso is considered warranted, although it is not without concern, as: * Apart from his role as NED of the Company, he also serves in various roles at other publicly listed companies, which could compromise his ability to commit sufficient time to his role in the Company. The main reason for support is: * One of his external commitments is at an investment company. Taking this factor into account, a degree of flexibility is considered appropriate. This will be kept under review.</i></p>

Voting Policy Rationale: A vote AGAINST independent director nominees LI,CHIA TUNG and JUAN,TA NIEN under Items 4.5-4.6 is warranted since they are incumbent directors, and the company has failed to disclose its annual report as of the date of the analysis, limiting shareholders' ability to assess the independence and suitability of them. A vote FOR independent director nominee CHANG,HSIAO WEI under Item 4.7 is warranted since he is new nominee, and company has fully disclosed the background information and qualifications of him and no significant concerns have been identified. A vote AGAINST the non-independent director nominees under Items 4.3-4.4 is warranted because the independence level will be 14.29 percent under ISS classification, which does not meet the ISS minimum requirement of one-third. A vote FOR the non-independent director nominees under Items 4.1-4.2 is warranted given their removal would be expected to have material negative impacts on shareholder value.

17	Approve Remuneration Report	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST the proposed remuneration report is warranted because: * Mikolaj Konopka, the company's executive, received a 53-percent annual fixed salary increase, the reasons for which are not addressed in the remuneration report. * Mikolaj Konopka received annual compensation from company's subsidiary significantly exceeding his annual compensation from the company, which is not sufficiently addressed in the report. * Management board member Terry Roydon provided additional consulting services in the amount of PLN 537,000 to the company as part of Hansom Property Company Limited. The company failed to provide a sufficient explanation of this practice. * Terry Roydon's variable compensation exceeded five-times his annual fixed salary amount, prescribed by the policy as a cap on variable remuneration. The company failed to provide a sufficient explanation of this practice. * The report lacks disclosure on exhaustive list of performance criteria, thresholds, targets, levels of achievement, and corresponding payouts applicable to the STI grants. As such, shareholders are not in a position to assess the alignment between pay and performance. * The company reports the variable payout from two different programs – Senior Executive Compensation Plan and long-term discretionary bonus program as a lump sum, without providing a sufficient and clear breakdown. * Part of variable remuneration is allocated based on long-term discretionary bonus program. While this remuneration is calculated based on a specified percentage of the company's consolidated gross profit, the report fails to address the potential discretion exercised under this element of variable remuneration. * The company has paid out remuneration in the form of stock option, with maturity of the instruments shorter than three years, and with a strike price set at approximately 48-percent discount to the market price of company's shares at the time of writing the option. The company did not provide a substantial explanation of this practice. * Some contractual terms for the company's CEO were not disclosed by the company, which makes it impossible to assess whether the company complied with the European market standards.</i>

20	Approve Remuneration Policy	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST the proposed policy is warranted because: * Some contractual terms for the company's CEO and other executives were not disclosed by the company, which makes it impossible to assess whether the company complied with the European market standards; * The remuneration policy lacks disclosure of a cap or range for the fixed pay of executives. Although it is not common to disclose a base salary as part of the policy, further details on the level setting would give shareholders a better idea of the total pay package; * The remuneration policy does not provide an exhaustive list of KPIs and their weights for the STI; * The remuneration policy does not disclose the performance conditions, financial instruments description, and vesting/holding provisions applicable to LTIP; * The company's remuneration policy includes a derogation clause which is of rather general nature. The derogation clauses should clearly define and limit any elements of compensation framework and extent to which derogations may apply.

Voting Policy Rationale: A vote AGAINST this item is warranted because: * The company does not provide details on applicable severance agreements, no-compete agreements, equity treatment in case of termination, which makes it impossible to assess whether the company complied with the European market standards; * The details regarding the exit payments are not disclosed by the company, which makes it impossible to determine whether the termination benefits were excessive or not; * The former deputy CEO, Kryspin Derejczyk received a one-off payment in the amount of PLN 443,333 for provision of additional services in 2023. The company did not disclose sufficient rationale for concluding the contract with the former executive; * According to the remuneration policy, supervisory board members may receive retirement benefits. The concern is mitigated by the fact that no non-executive participated in the programs in 2023. In addition, we note that non-executive participation in retirement benefits schemes is a common market practice.

<i>Voting Policy Rationale: A vote AGAINST the proposed remuneration report is warranted because: * The company's executives are paid variable remuneration based on the supervisory board's discretionary decision, which is not sufficiently explained in the report. * The company's disclosure is not sufficient to assess the alignment between the company's performance and the level of variable pay received by the directors based on the discretionary decision of the supervisory board. We note that the company failed to set ex-ante performance indicators, their target values, and relies on ex-post discretion in allocating variable remuneration. * The remuneration report fails to address significant increases in executives' fixed pay. * The average employee pay and CEO pay ratio are not disclosed. * Some contractual terms for the company's CEO and executives were not disclosed by the company, which makes it impossible to assess whether the company complied with the European market standards.</i>

Voting Policy Rationale: A vote AGAINST the proposed remuneration policy is warranted because: * Some contractual terms for the company's CEO and other executives were not disclosed by the company, which makes it impossible to assess whether the company complied with the European market standards. * The remuneration policy lacks disclosure of a cap or range for the fixed pay of executives. The company bases the range of CEO's and executives' base salaries on peer analysis, but the peer group is not sufficiently well-defined. Although it is not common to disclose a base salary as part of the policy, further details on the level setting would give shareholders a better idea of the total pay package. * The remuneration policy does not provide a list of KPIs and their weights for the STI. * The supervisory board is vested with broad discretionary powers in setting the parameters of fixed and variable remuneration, and in payout of discretionary bonus. * The supervisory board members are entitled to receive retirement benefits. However, we note that non-executive participation in retirement benefits schemes is a common market practice.

Voting Policy Rationale: A vote AGAINST is warranted because: * In 2023 the company granted 2 executives with a discretionary bonus in light of not achieving the 2020-2022 LTI target and is not accompanied by a compelling rationale; * Some contractual terms for the CEO and other executives were not disclosed by the company, which makes it impossible to assess whether the company complied with the European market standards; * The STI lacks disclosure on specific performance indicators, thresholds, targets, and metrics, as well as the realized values of the performance indicators. * The company provides lagging disclosure, meaning 2023 bonuses paid over performance year 2022. * Some terms of exit payments of former executives are not disclosed; * Non-executive remuneration exceeds average non-executive fees paid in Poland. In addition, the supervisory board chairman received additional benefits in the amount of PLN 1,000,040, which is not in line with market practice in Poland.

3	Re-approve Omnibus Long-Term Incentive Plan	Mgmt	For	Against	Against
Voting Policy Rationale: Based on evaluation of the estimated cost, plan features, grant practices, and overriding negative factors using the Equity Plan Score Card (EPSC), vote AGAINST this omnibus plan due to the following key factors: * The plan does not sufficiently limit non-employee director participation; and * The plan's detailed amendment provision does not sufficiently limit the board's ability to amend the plan without shareholder approval.

12	Approve Remuneration Report	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST is warranted because: * The STIP lacks specific performance indicators, thresholds, targets, as well as levels of achievement for variable remuneration payout. Such lack of disclosure limits the shareholders' ability to comprehend the alignment between pay and performance of executives; * The supervisory board is vested with broad discretionary power to establish specific performance conditions for the STI; * The members of the supervisory board received retirement benefits. However, non-executive participation in the retirement benefits schemes is a common market practice in Poland.					
13	Amend Remuneration Policy	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST is warranted because: * The remuneration structure potentially allows for significant discretionary powers of the supervisory board in setting and paying out variable remuneration; * The company does not disclose well-defined performance metrics and their weights for the STI plan; * Some contractual terms of the CEO and other executives are not disclosed, such as the amount of non-compete pay. The compete pay is set discretionarily by the supervisory board and lacks a cap; * The company's remuneration policy includes a derogation clause which is of rather general nature; * The supervisory board members may be entitled to participate in the retirement benefits scheme. However, non-executive participation in the retirement benefits schemes is a common market practice in Poland.

Voting Policy Rationale: A vote FOR this shareholder nominee is recommended because: * Under the current sub-ceiling for outside directors, assuming that the two dissident candidates and the four outside director candidates nominated by the company are elected, annual compensation per capita for outside directors will come to only JPY 3.3 million, which would not be sufficient at all to attract qualified individuals as outside directors to the board.

14	Approve Remuneration Report	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST is warranted because: * The increase in the base salary (+12 percent) of the management board member, Wojciech Szwarc was not supported by a sound rationale; * The company has failed to disclose the specific performance conditions, targets, minimum and maximum thresholds, level of achievement of each of the targets, as well as corresponding payouts for the STI; * The supervisory board is vested with extensive discretionary power to set forth the specific principles for granting bonus on the annual basis, including the cap; * The executives received warrants as per the LTI plan, while the remuneration report lacks disclosure on the parameters of LTI plans. At the same time, vesting may occur earlier than in three years. This concern is mitigated as no awards were vested in fiscal 2023; * Some terms of the management contracts, including details regarding the severance terms and non-compete agreement, are not disclosed; * The executive, Bartosz Jozefiak, who resigned from the management board without stating the reason, was entitled to receive a severance pay, which is not in line with common market practice; * The members of company's supervisory board received retirement benefits. However, we note that non-executive participation in the retirement benefit schemes is a common market practice, and the level of contributions is insignificant in relation to the total compensation.
