5	Ratify PwC Wirtschaftspruefung GmbH as Auditors for Fiscal Year 2024	Mgmt	For	For	For
6	Approve Remuneration Report	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * The free float approval rate on the previous year's remuneration report was only 19.4 percent, yet has not been addressed by the company. It is further highlighted that free float approval rates as well as overall support levels for the company's remuneration report have been declining over the past years. * Awards granted under the long-term incentive partially vested after one year (thus, performance was only assessed over a one-year period). * One executive received a significant base salary increase during the year without a detailed explanation. * There appears to be a misalignment between performance-linked remuneration and the company's actual performance.					

Proposal Number	Proposal Text	Proponent	Mgmt Rec	Voting Policy Rec	Vote Instruction
7	Approve Remuneration Policy	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST this resolution is warranted because: * The proposed policy continues to contain significant scope for the award of discretionary payments via special bonuses, sign-on bonuses, and retention bonuses. * The policy does not provide any information regarding the quantum level of base salaries nor is a total remuneration cap disclosed. * Although the vesting period under the LTI appears to be set to four years, performance is only measured over a one-year period (i.e. the last year of the tranche). * Given that the proposed policy remains largely unchanged, it appears that significant shareholder dissent on the previous year's remuneration policy has not been addressed. At the 2023 AGM, only 81.3 percent of shareholders overall supported the revised policy. Of this, the free float approval rate was only 21.2 percent.

3	Approve Remuneration Policy	Mgmt	For	Against	Against
	Voting Policy Rationale: This item warrants a vote AGAINST because the remuneration policy is not aligned with acceptable market standards. First, the company- without providing a rationale- significantly increases the cap of the long-term incentive plan in case of maximum performance. In addition, the following shortcomings are highlighted: * Severance in favor of the CEO/GM may exceed 24 months short-term pay and there are no clear guidelines on the non-compete clause. * The policy does not sufficiently circumscribe the elements of the remuneration to which derogation can apply.

10	Amend Remuneration Policy	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST is warranted because: * The policy lacks disclosure regarding the extraordinary, per-case bonus, while the remuneration committee has the discretionary power to grant such an award; * The company does not disclose the necessary performance criteria and their parameters for the LTI and STI. In particular, the well-defined performance conditions with the targets, maximum and minimum payouts are not disclosed; * The remuneration and nomination committee is composed of the members of the board of directors, performing the executive functions at the company. The committee is authorized to grant special bonus to executives and determine the parameters of the variable components of remuneration; * Some variable remuneration programs (LTIP and Share Matching Plan) are directly linked to the performance of the company's controlling entity - Deutsche Telekom. The long-term incentive linked to the performance of the controlling company were not justified by a sound rationale, while such practice does not seem to be in line with the interests of minority shareholders; * The fixed base remuneration and the caps on the variable remuneration were not disclosed for the CEO and chief officers. Therefore, shareholders have no means to assess the remuneration range for executives; * Some contractual terms of the CEO and chief officers were not disclosed, such as the severance terms, non-compete agreement, as well as malus and clawback provisions for each component of remuneration; * Clawback is waived for two components of the remuneration – annual bonus, game changer incentive plan; * The derogation clause in the policy is broadly-defined and lacks clarity.</i>

11	Approve Remuneration Report	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST is warranted because: * The company's disclosure on the compensation related to the long-term performance program in the aggregate amount. Such disclosure does not allow the shareholders to assess the variable payout for each part of variable compensation; * The company does not disclose all performance criteria in a measurable way and their parameters for the LTI and STI. In particular, the target values of the performance criteria, the thresholds, caps, as well as the levels of achievement and the corresponding payouts are not disclosed. As such, the shareholders cannot evaluate the alignment between the pay and performance of the company's managers; * The company does not disclose the average employee pay; * The remuneration and nomination committee is composed of board members performing executive functions; * Some performance conditions of LTI programs are tied to the performance of the company's controlling, majority shareholder. Such practice does not appear to be necessarily in line with the interests of minority shareholders; * Clawback is waived for variable remuneration. The possibility to reclaim the reward due to executives' wrongdoing or any other justified reason provides safeguards against paying for failure.

2.1	Approve Remuneration Policy	Mgmt	For	Against	Against
Voting Policy Rationale: This item warrants a vote AGAINST because: * The company does not provide sufficient ex-ante information on the performance criteria attached to the up-front portion of the annual bonus. * The policy leaves excessive derogation and discretionary powers to the board.					
2.2	Approve Second Section of the Remuneration Report	Mgmt	For	Against	Against
Voting Policy Rationale: This item warrants a vote AGAINST due to: * Inadequate retrospective disclosure about variable pay. * The sizeable one-off award in favor of the CEO/GM. * Poor background information on the significant travel allowances paid to the executive chairman and the consultancy fees assigned to one member of the remuneration committee.					
3	Elect Isabella Nova as Director and Approve Director's Remuneration	Mgmt	For	Against	Against
Voting Policy Rationale: This item warrants a vote AGAINST as the proposed nominee, who is a member of the remuneration committee, has been reclassified as non-executive non-independent. 9	Amend Remuneration Policy for Management Board	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST is warranted because: * Concerns are raised regarding the consequences of a rebalanced peer group. Specifically, the peer group contains a large proportion of United States-based firms (40%) which results in a substantial increase in the proposed pay package. Additionally, the company did not provide a compelling rationale for this inclusion; * Although we recognize the company is moving away from a RSU plan to a performance based plan, the company proposes to do this at a significant premium (increase of 100 percent of the at-target grant value of the LTI), resulting in an increase of the at-target pay package by 64 percent without the company providing a compelling rationale for the increase. * Lacking disclosure of LTI performance metrics regarding targets and weights of financial and non-financial metrics in the total LTI opportunity, which does not allow shareholders to assess the stringency of the LTI pay for performance framework (particularly the TSR metric), especially since the company is putting more emphasis on the LTI award in total remuneration; * There is no disclosure regarding the STI performance metrics' weights; * The derogation clause is general in nature. However, we do note that the company provides clear ex-post disclosure regarding the STI performance metrics' weights and targets in the remuneration report.

<p><i>Voting Policy Rationale: A vote AGAINST the proposed authorization is warranted because: * The issuance request, when combined with the existing conditional capital, would allow for a capital increase without preemptive rights for up to 27.9 percent of the issued share capital. * The issuance request would allow the board to issue both types of issued shares, which could perpetuate the dual-class capital structure with unequal voting rights.</i></p>					
10.2	Amend Articles Re: General Meetings	Mgmt	For	Against	Do Not Vote
<p><i>Voting Policy Rationale: Items 10.2: A vote AGAINST the proposed article amendments is warranted because: * The ownership threshold for shareholders to submit agenda items will increase from currently 0.22 percent of the share capital to 0.5 percent of the share capital. * The company has bundled a set of amendments that could have been submitted for shareholder approval under separate resolutions, presenting shareholders with an all-or-nothing choice. Item 10.3: A vote FOR this resolution is warranted, although we highlight that the introduction of a deadline for requesting an agenda item at 60 days prior to the meeting far exceeds current market practice in Switzerland, which may be of concern to some shareholders. Item 10.4: A vote FOR this resolution is warranted, although it is not without concerns because it would allow for virtual-only shareholder meetings on a permanent basis and the company does not elaborate on the circumstances under which virtual-only meetings would be held. The main reasons for support are: * The company is holding an in-person AGM this year and states that it does not intend to hold virtual-only meetings, but is rather seeking the necessary legal basis in its articles. If virtual-only meetings would be held, shareholders' participation rights would be protected (in line with Swiss law). Items 10.5-10.7: Votes FOR the proposed article amendments are warranted because they are overall non-contentious in nature and largely reflect amendments in line with new Swiss statutory requirements.</i></p>

Voting Policy Rationale: A vote AGAINST is warranted, because the proposed remuneration is below par in relation to market standards, particularly with regard to disclosure of ex-post the targets on the STI and LTI criteria, nor the achievements level per criteria individually. Furthermore, the LTI plan is only based on a 2-year performance period with 70 percent of the bonus being paid out at the beginning of the third year in cash with the remaining 30 percent paid out in shares over two years.

5	SP 1: Hold Annual Meetings of the Company in Person with Virtual Meetings as Complements	SH	Against	For	
<i>Voting Policy Rationale: Vote FOR this shareholder proposal. The board has highlighted in its response benefits of virtual participation: time and cost-savings, along with expanded participation for a global investor base. While many investors recognize the potential benefits of enabling participation at shareholder meetings via electronic means as a potential enhancement to shareholder rights, especially when combined with a physical meeting, they also raise concerns about moves to eliminate physical shareholder meetings, arguing that virtual-only meetings may hinder meaningful exchanges between management and shareholders, enable management to avoid uncomfortable questions, increase the likelihood of marginalizing certain shareholders, and contribute to an erosion of shareholder rights. In addition, compelling investor feedback indicates that a significant majority of shareholders want to retain the ability to attend shareholder meetings in person, even if in a given year they elect to participate only virtually. While shareholders agree with the purported benefits of virtual meetings as highlighted by the board, they believe those benefits should be combined with the option to participate in person, as such "hybrid" meetings would mitigate corporate governance concerns related to virtual-only meetings, while also maximizing attendance and participation. In light of the fact that the COVID-19 public health emergency was declared to have ended in May 2023, the company has not provided compelling reasons for continuing to hold virtual-only shareholder meetings. In the absence of any other extenuating circumstances preventing the company from holding an in-person meeting, a vote FOR the proponent's request is warranted at this time.</i>

Voting Policy Rationale: A vote AGAINST this item is warranted, due to the following considerations: * The coexistence of the two policy provisions (100 percent salary-capped one-off awards and the new Variable Remuneration Linked to the Performance of New Businesses) is a cause for concern. Management pay package is considered sufficiently competitive to retain and motivate talent such that the introduction of this new incentive appears superfluous. * The executive chairman is now entitled to termination benefits that exceed the 24-month pay standard.

8	Amend Remuneration Policy	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST this resolution is warranted because: * The proposed cap on the value of the remuneration in the form of financial instruments may result in excessive remuneration paid to executives, while it is not supported by any sound justification; * Some contractual terms, such as base salary, severance terms, and non-compete agreements for the company's executives, are not fully described; * The company does not disclose all the necessary performance criteria and their parameters for the annual bonus; * The variable remuneration in the form of financial instruments lacks disclosure on the performance period, vesting scheme, performance conditions, exercise price. Besides, the disclosure suggests that the performance period may be one year; * The supervisory board is vested with extensive discretionary power to set forth the specific conditions of fixed and variable remuneration components; * The derogation clause is broadly defined; * Members of the company's supervisory board are granted participation in the retirement scheme. However, this concern is partially mitigated since non-executive participation in the Employees Capital Plan is a common market practice.

1	Approve Financial Statements, Statutory Reports, and Allocation of Income and Dividends	Mgmt	For	For	For

3	Approve Company's Corporate Governance Statement	Mgmt	For	For	For
4	Approve Remuneration Report	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST the proposed resolution is warranted, because: * A number of directors receive additional remuneration from company subsidiaries without adequate disclosure on the nature of this additional remuneration. This is raising particular concern because the additional remuneration is significant and for remuneration is similar to that of the CEO. * The remuneration and nomination committee may be composed out of executives.					
5	Amend Remuneration Policy	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST the proposed resolution is warranted because: * The proposed policy does not specify any limits of the CEO's fixed pay. * The proposed policy allows for an extraordinary bonus of a discretionary nature. * The company proposed to install variable remuneration, but is not accompanied by adequate disclosure on the modalities of the incentive plan. * The company has a combined nominating and remuneration committee, composed out of the board of directors (the management board) members, so it cannot be ascertained that no executives are members of the committee.

Voting Policy Rationale: A vote AGAINST this resolution is warranted because performance targets of the plan are not disclosed. Moreover, the plan has the following additional negative features: * The weight of each performance objective is not disclosed, and financial metrics are vaguely described. * The company uses the same financial metrics [EBITDA and Consolidated Net Financial Position of the Group] under the annual bonus and the long-term incentive (double-dipping). * The plan allows for accelerated vesting in case of launch takeover bid. * Individual award limits remain undisclosed.					
5	Approve 2024-2028 Long-Term Incentive Plan	Mgmt	For	Against	Against

	Accept Financial Statements and Statutory Reports	Mgmt	For	For	For
Voting Policy Rationale: A vote FOR is warranted because the company's financial statements and the proposed income allocation do not raise major concerns. Support for the approval of the financial statements is however qualified due to the shareholder meeting format, which will not allow shareholders to actively participate in the AGM and interact with the management during the meeting.

Voting Policy Rationale: A vote FOR is warranted because the company's financial statements and the proposed income allocation do not raise major concerns. Support for the approval of the financial statements is however qualified due to the shareholder meeting format, which will not allow shareholders to actively participate in the AGM and interact with the management during the meeting.					
3	Approve Remuneration Policy	Mgmt	For	Against	Against
Voting Policy Rationale: This item warrants a vote AGAINST because: * Termination payments can be in excess of 24 months' pay. * The proposed significant pay increases are not explained by a detailed and compelling disclosure. * The company does not provide sufficient information on the performance targets to achieve within its long-term incentive plan. As the plan is cash-based and not linked to the market price of company shares, shareholders are not called to approve it under a separate item. * The board maintains excessively broad derogation powers.					
4	Approve Second Section of the Remuneration Report	Mgmt	For	Against	Against
Voting Policy Rationale: This item warrants a vote AGAINST because: * The level of pay for the CEO was excessive relative to peers and company performance. * The company provides insufficient ex-post information on the absolute targets attached to variable remuneration.

Voting Policy Rationale: This item warrants a vote AGAINST because: * Ex post information on variable remuneration is insufficient. * In FY23, an exemption to the policy was applied and the company fails to provide information on what the derogation was, whom it concerned or its amount. * Under the Stock-Option Plan 2019-2024 "Carlo Rosani Prize for the 50th anniversary of the foundation of the Company", awards vested after less than 12 months.

3a	Approve Remuneration Policy	Mgmt	For	Against	Against
<i>Voting Policy Rationale: This item warrants a vote AGAINST because: * The derogation policy is broadly formulated and fails to specify the compensation elements that may be derogated from. The board further reserves the right to make discretionary stock option grants. * Executive directors are entitled to annual termination payments irrespective of their office having terminated. * The executive with strategic responsibilities (ESR) is entitled to annual non-compete payments corresponding to 16.7 percent of his total fixed remuneration. * The ongoing LTI is problematic in terms of dilution. Concerns with the new proposed LTI are addressed under Item 4.</i>					
3b	Approve Second Section of the Remuneration Report	Mgmt	For	Against	Against
<i>Voting Policy Rationale: This item warrants a vote AGAINST because: * The annual bonus opportunity for executive directors was increased for the second year in a row, overall from EUR 200,000 to EUR 500,000, without rationale. Mitigating this, overall pay opportunities remain comparatively low. * While the company provides general information on the achievement level of STI performance metrics, underlying targets are not disclosed. Mitigating this, pay and performance appear aligned overall. * Absent an option grant policy for executive directors, annual allocations are to be considered discretionary. In addition, while the board decided in 2021 that executive directors would receive annual grants of 25,000 options in FY21-23, this was increased without rationale to 40,000 options in both FY22 and FY23. * Executive directors received termination payments even though they remain in office. * The ESR other than the executive directors received non-compete payments representing 43.3 percent of his FY23 fixed compensation, including a one-off amount of EUR 80,000.</i>

For the short-term part: individual opportunity is not disclosed. The company allows the possibility for a total pool for stock-based plans of 10 percent of the share capital). <p><i>Voting Policy Rationale: A vote AGAINST this item is warranted because: * The company has failed to disclose the detailed KPIs, their corresponding weights, the minimum and maximum achievement levels, targets, and the levels of actual achievements, as well as the corresponding payouts for both STI and LTI; * Share-based remuneration provided in the form of Philip Morris International Inc. shares appears to be linked to the performance of the mother company. Such practice does not appear to be necessarily in line with the interests of minority shareholders and was not justified by any sound rationale; * Anton Stankov and Petr Sedivec left the executive positions in 2023. The report lacks further details such as severance pay, notice period; * The members of the supervisory board received remuneration from the entities from the same group of companies, including performance-based remuneration. Receiving the variable performance-based remuneration and the supplementary pension insurance from the entities from the same group as the company increases the risk of conflict of interests.</i></p>

This program is not up for shareholder approval at this meeting, neither it is disclosed in the meeting materials.</i></p>

2	Approve Remuneration Report	Mgmt	For	For	For
3	Approve Remuneration Policy	Mgmt	For	Against	Against
<p><i>Voting Policy Rationale: A vote AGAINST this item is warranted: * The Company is proposing the introduction of a hybrid LTIP, which has the potential to double the existing award opportunity to 400% of salary, should awards be granted under performance shares, or allow for awards of up to 200% of salary to be made under restricted shares, which are not subject to performance metrics. Notwithstanding the Company's rationale, the proposed arrangements significantly deviate from current UK remuneration practices. The appropriateness of the proposals may also be questioned further in light of Company performance over the reporting period and the significant shareholder dissent observed at the 2023 AGM attributable to the CEO salary increase.</i></p>					
4	Re-elect Paula Bell as Director	Mgmt	For	For	For
<p><i>Voting Policy Rationale: Items 4, 5 & 7-11 A vote FOR these Directors is warranted as no significant concerns have been identified. Item 6 A vote FOR this Director is warranted, although it is not without concern: * As Chair of the Remuneration Committee, Gary Bullard is considered ultimately accountable for remuneration practices at Board level – where a number of potential concerns have been highlighted. The main reason for support is: * The Company is currently in the process of being acquired and an adverse vote recommendation is not considered appropriate at this time. * The Remuneration Committee has conducted engagement exercises during the year pertaining to the shareholder dissent and the proposed remuneration policy.</i></p>

7	Approve Remuneration Report	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * The level of disclosure provided in the remuneration report does not allow for an independent assessment of remuneration practices, in particular regarding ex-post target achievements. * Certain executives received a significant base salary increase during the year without a detailed explanation. * Although some concerns may be mitigated by the low level of CEO pay, the absence of disclosure or context on a mere EUR 10k pay package raises concern. * Significant shareholder dissent on the previous year's remuneration report does not appear to have been sufficiently addressed. At the 2023 AGM, only 68.7 percent of shareholders overall supported the 2022 remuneration report. Of this, the free float approval rate was only 25.6 percent.

2	Approve Ernst & Young LLP as Auditors and Authorize Board to Fix Their Remuneration	Mgmt	For	For	For
3	Advisory Vote on Executive Compensation Approach	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST the say-on-pay resolution. The quantitative pay-for-performance screen has identified a high concern. This comes after the high concerns identified in the two previous years. The company has underperformed its GICS group and the company's self-selected peers on a one-, three- and five-year timeframe. On the other hand, the 2023 CEO total compensation increased slightly year-over-year, primarily due to a one-time RSU award which offset the reduced annual bonus payout. In addition, the disclosure of long-term incentive metrics appears to be insufficient, and a lacking response to the low say-on-pay support at the last AGM is also cause for concern.

Voting Policy Rationale: A vote FOR the grant of restricted shares (FY23 STI) and performance rights (FY24 LTI) to Managing Director and CEO Tom O'Leary is warranted. * The restricted shares represent the deferred portion of the FY23 STI bonus. Settlement is deferred in equity in equal tranches over a two-year period, which aligns with better market practice. * The terms of the performance rights are sufficiently consistent with market practice and prior year LTI grant. * There is also no provision for "dividends on unvested shares" which aligns with better market practice. * Some concern is noted that there is no absolute positive TSR gateway which would otherwise ensure executives are rewarded for positive shareholder returns.

Voting Policy Rationale: A vote FOR these resolutions is warranted, although this is not without concern for shareholders: * If the Company were to issue Tier 1 bond and a trigger event were to occur, causing them to convert into ordinary shares, this would result in significant dilution to non-participating shareholders. The main reasons for support are: * Such authorities are common proposals at UK banks and are intended to apply in extreme circumstances only; and * The conversion into ordinary shares would require the CET1 ratio to fall to a level which would denote significant capital weakness well beyond the Company's current position and minimum regulatory requirements.

9	Approve Remuneration Report	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST this resolution is warranted because: * The Directors' remuneration report did not meet the requisite shareholder approval at the 2023 AGM, following a trend of significant shareholder dissent recorded since the 2021 AGM, raising questions regarding the extent to which the Committee has addressed the recurring concerns of shareholders. * While the Company's attempts to provide greater level of disclosures are recognised, there remains significant scope for more robust disclosures in respect of qualitative measures and the payment/vesting outcomes of the variable incentives given the maximum payout under the bonus and LTIP.</i>

<p><i>Voting Policy Rationale: A vote AGAINST this item is considered warranted: * The implementation of the annual bonus scheme, which is uncapped, has consistently resulted in excessive bonus payouts. This is again the case for FY2023, where the CEO earned an award of GBP 10,412,000 (c.10% of PBT). The main reasons for support are: * The concerns pertaining to remuneration are currently considered to be suitably reflected in the vote recommendations of the remuneration report (Item 2) and the re-election of the Chair of the Remuneration Committee (Item 9). 2	Approve Grant of Share Rights to Pauline Blight-Johnston	Mgmt	For	Against	Against		
Voting Policy Rationale: A vote AGAINST the grant of share rights to the CEO Pauline Blight-Johnston is warranted. This is a bundled proposal and despite the terms and conditions of the FY23 Deferred STI and FY24 LTI grants being sufficiently consistent with accepted market practice and shareholder expectations, the company is seeking advance approval to grant additional share rights representing notional dividend equivalents, known as "dividends on unvested shares" in respect of LTI rights that are still on-foot and have not vested. At no time during the performance period of the rights is there any ownership of, or present entitlement to, shares or dividends paid on the shares. Concern for the calculation of the "underlying" ROE may involve excessive judgement or discretion which may be misaligned with actual performance and shareholder outcomes.

<i>Voting Policy Rationale: A vote FOR these resolutions is warranted, although this is not without concern for shareholders: * If the Company were to issue Regulatory Capital Convertible Instruments and a trigger event were to occur, causing them to convert into ordinary shares, this would result in significant dilution to non-participating shareholders. The main reasons for support are: * Such authorities are common proposals at UK banks and are intended to apply in extreme circumstances only; and * The conversion into ordinary shares would require the CET1 ratio to fall to a level which would denote significant capital weakness well beyond the Company's current position and minimum regulatory requirements.</i>

5d	Re-elect Gary Britton as Director	Mgmt	For	For	For
<p><i>Voting Policy Rationale: Item 5a A vote FOR the re-election of John Reynolds is considered warranted, although it is not without concern: * He will have served on the Board beyond nine years since his appointment, which is a departure from the UK Code. The main reasons for support are: * There is some need for stability at Board level given the level of change at over the course of 2024; * The Chair is to play a role in the orderly transition to a new CFO. Item 5h A vote FOR the re-election of Julie Sinnamon is considered warranted, although it is not without concern: * She is the Nomination Committee Chair who is considered to be ultimately accountable for board diversity. Currently, the Board does not meet the recommendation of having at least one Director from an ethnic minority background. The main reasons for support are: * The overall gender diversity of the Board improved during the year under review through the appointment of NED; * The Company has stated that ethnic diversity will be considered in future recruitment processes. Items 5b to 5g A vote FOR these Directors is considered warranted as no significant concerns have been identified.</i></p>

1	Approve Remuneration of Company's Management	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST this proposal is warranted because: * The figure reported by the company for the total compensation of its highest-paid executive does not appear inclusive of all elements of the executive's pay; * The company reported a non-executive director as its highest-paid administrator for the most recent fiscal year, indicating that a member of the board (generally the non-executive chair) received greater compensation than the remuneration paid to the company's highest-paid executive (generally the CEO). No rationale was disclosed for this concerning pay practice; and * The company has failed to provide a rationale for the significant year-over-year increase proposed for the global remuneration cap.

3	Approve Remuneration Policy	Mgmt	For	Against	Against
Voting Policy Rationale: This item warrants a vote AGAINST because: * The company does not provide sufficient information on its new long-term incentive plan. As the plan is cash-based and not linked to the market price of company shares, shareholders are not called to approve it under a separate item. * The board maintains excessively broad derogation powers. * Termination payments may theoretically exceed 24 months' pay when including indemnities for non-compete agreements.

8	Approve Issuance of Incentive Performance Rights to Richard Hyde	Mgmt	For	For	For
<p><i>Voting Policy Rationale: A qualified vote FOR the equity grants to CEO Richard Hyde, COO Lyndon Hopkins and Executive Director Elizabeth Mounsey is warranted. Performance measures are well disclosed and aligned with improved company performance and shareholder outcomes. The recommendation is qualified to raise concerns for: * The FY24 STI equity component represents the deferred component of the FY24 STI bonus. This is an advance approval of a bonus which is inconsistent with good market practice, noting the FY24 performance period has not been completed. In mitigating, the performance targets for the FY24 STI are well presented which is in fact superior market practice. * The performance measures for the FY24 LTI grant are well disclosed and comprise production, reserve replacement and sustainability milestones which are aligned with improved shareholder interests. However, concerns are highlighted that * the performance period for the production target allows for early vesting in less than three years, * there appears double counting of production targets in the STI and LTI, essentially offering bonuses twice for the same performance, and * the LTI metrics lack any objective financial measures of performance such as TSR.</i></p>

Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * There is insufficient ex-post disclosure to explain the application of the variable incentive and performance achievements underlying payouts. * The CEO's base salary of EUR 2.8 million appears excessive in the context of market practice and the report provides no context for this amount. * One-off special payments were awarded to two executives in connection with their reappointments. * The report does not directly address significant shareholder dissent on last year's vote.

9	Approve Remuneration Policy for the Management Board	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST this resolution is warranted because: * The policy does not quantify or explain fixed remuneration levels, which raises concern considering the CEO's current base salary of EUR 2.8 million, which appears excessive in the context of market practice. * Under the new LTI, performance targets are defined in vague terms, no payout cap is disclosed, and no information is provided regarding the terms of stock options. * The policy contains significant scope for open-ended discretion via special bonuses. * The policy does not provide information on severance arrangements in case of termination with or without cause.

1.1	Elect Director Linda Hasenfratz	Mgmt	For	Withhold	Withhold
Voting Policy Rationale: Vote WITHHOLD for Linda Hasenfratz, Jim Jarrell, and Mark Stoddart for serving as executive directors on a non-majority independent board. Vote WITHHOLD for Terry Reidel as the board appears to lack racial/ethnic diversity, and the board has not made a firm public commitment to appoint at least one racial and/or ethnic diverse member at or prior to the next annual shareholder meeting. Vote FOR the other proposed nominees. The overall quantitative pay-for-performance screen indicates a high concern. The company has performed roughly in line with its peer group on a one-year timeframe while underperformed its peers on three- and five-year timeframes. The company's operational performance has shown improvement and certain operational metrics outperformed the peer median. Furthermore, for 2023, CEO compensation appears to be slightly below the peer median. In light of those factors, the concern level is mitigated to medium.

Voting Policy Rationale: A vote FOR candidates Ejvor Andersson, Magnus Håkansson and Michael Loeve is warranted due to a lack of concern regarding the suitability of these individuals. A vote AGAINST candidates Dominick Zarcone, Kenny Brack, Robert Reppa and Helena Skaantorp is warranted for the following reasons: * Dominick Zarcone, Kenny Brack, Robert Reppa and Helena Skaantorp are non-independent directors on a board with insufficient level of overall independence. * Dominick Zarcone for his position as chairman of the board and membership on the nomination committee due to insufficient gender diversity on the board. * Helena Skaantorp for her position as non-independent chair of the audit committee.

	<i>Voting Policy Rationale: A vote AGAINST is warranted because: * Some contractual terms of the company's executives, such as malus and clawback parameters, severance terms, pension arrangements, benefits package were not fully described by the company; * The company does not disclose performance criteria and their parameters for the STI; * The policy lacks disclosure regarding an extraordinary cash award, while the supervisory board has the discretionary power to grant such an award; * The supervisory board is vested with extensive discretionary power to set forth the specific conditions of variable remuneration components. Besides, the policy foresees an authorization granted by the general meeting to the supervisory board to establish rules for granting the variable remuneration; * The derogation clause in the policy is broadly-defined and lacks clarity; * The company does not disclose the necessary elements of the LTI. However, this concern is partially mitigated as the incentive program is separately adopted by the general meeting.</i>

15	Approve Remuneration Report	Mgmt	For	Against	Against
Voting Policy Rationale: A vote AGAINST is warranted because: * The report provides limited disclosure regarding the bonus paid out to the deputy CEO, Grzegorz Dzik. We also note that the supervisory board has the discretionary power to determine the variable component of executive remuneration and to grant a cash award; * The increase in the base salary of the CEO is not justified; * The management board members receive, in addition to the compensation from the company, the compensation from NEUCA Group companies, while no further details were disclosed; * Remuneration is not the subject of malus or clawback agreements; * One supervisory board member received retirement benefits. However, we note that this is a common market practice, and the payment is insignificant in relation to the total director's compensation; * The company operates the LTI program, whose provisions are not in line with best market practice. However, the concern is partially mitigated since no shares were acquired in fiscal year 2023.

Items 8 to 10, 12 & 13 A vote FOR the re-election of Andrew Belshaw, Bill Castell, Rachel Addison, Shaun Gregory and Xavier Robert is warranted because no significant concerns have been identified. Item 11 A vote FOR the re-election of Charlotta Ginman is warranted, although it is not without concern because: * Apart from her role as NED of the Company, she also serves in various roles at other publicly listed companies, which could compromise her ability to commit sufficient time to her role in the Company. The main reason for support is: * Half of her external commitments are at investment companies. Taking this factor into account, a degree of flexibility is considered appropriate.</i></p>

Voting Policy Rationale: Item 6 A vote FOR this Director is warranted, but is not without concern: * Brian Mattingley, the Nomination Committee Chair, is considered responsible for incorporating sufficient diversity on the Board. As at the reference date and the AGM date, there is not at least 40% of women on the Board and no woman holding a senior Board position, contrary to two of the principal diversity targets set under the new Listing Rules. The main reasons for support are: * A new NED (Doreen Tan) will join the Board within the year, at which point the Board will comprise 37.5% women, which approximates the 40% target. * This is the first year that the Company has been required to report under the new Listing Rules. Items 7-12 A vote FOR these Directors is warranted as no significant concerns have been identified.

3	Approve Remuneration Report	Mgmt	For	Against	Against
<p><i>Voting Policy Rationale: A vote AGAINST this item is considered warranted: * The Executives received a bonus of GBP 157,500 each. Although the Company's improved performance is recognised, the Company has not provided any details of the specific performance targets used to determine the level of bonus awarded – a concern that was also highlighted in respect of the previous year's reporting. As this represents a material departure from market practice, support for the remuneration report cannot be supported.</i></p>

<p><i>Voting Policy Rationale: Item 6 A vote FOR Eli Papouchado is considered warranted because: * He is a founder and significant shareholder at the Company, and has served as Chair for 16 years, which runs against the recommendations of the UK Code for a board chair. * Eli Papouchado's attendance was 29% during the year, (two out of seven meetings) which is deemed insufficient attendance. No explanation has been provided in relation to his absence. The main reasons for support are: * The Company has provided an explanation for the Chair's independence assessment. * Attendance has not been a recurring issue but will be kept under review. Item 10 A vote FOR Ken Bradley is considered warranted because: * The Board does not comply with any of the primary diversity targets disclosed in the new FCA Listing Rules. As the Nomination Committee Chair, Ken Bradley is considered ultimately responsible for the composition of the Board. It is also noted that no improvements have been made from last year. The main reasons for support are: * There were no Board changes since the 2023 AGM; * The Company's diversity policy is acknowledged. Items 7-9 and 11-13 A vote FOR these Directors is warranted as no significant concerns have been identified.</i></p>
